Annie Ma
Full Stack Developer
Atlanta, Georgi • annnieeeema@gmail.com
LinkedIn • GitHub

Full-stack Web Developer with broad experience with modern web technologies, specializing in JavaScript. Demonstrated abilities with visual aspects of software engineering and have a passion in backend development utilizing problem solving and technology to develop products.

Skills:

Languages | HTML, CSS, JavaScript, Python
Frameworks | Bootstrap, MERN (MongoDB, Express, React, Node), Django, Bootstrap, Materialize
Other | Git, Github, RESTful APIs, Figma, JSON, AJAX, jQuery, EJS

Projects:

Blossom | GitHub | App (Python, Django, PostgreSQL, Javascript, Materialize)
- Fullstack application that allows for users to keep track of their plants, as well as the waterings, fertilization, and repotting times associated with each one.
- Utilizes Django authentication features to allow for users to login in and save data.

BTWN U+I | GitHub | App (Express, Mongoose, MongoDB, Firebase, React, Node, Bootstrap)
- Fullstack application that helps search for places between two addresses.
- Uses TomTom API to navigate geocode and output results.
- Zoom functions on map and place marker popups.

Jewelry Store | GitHub | App (HTML, JavaScript, Express, Ejs, Mongoose, MongoDB)
- Jewelry store containing full CRUD application.
- Ability to navigate to different pages and view Jewelry.

Words of Wisdom | GitHub | App (HTML, CSS, JavaScript, jQuey, AJAX)
- Created a random quote generator using AJAX to render information from a third-party quote API.
- Utilized CSS and HTML properties to make the in-browser app more pleasing to the user.

Experience:
